

Can I solve time problems?

1. The train leaves Leeds at ten past 3 and arrives in York at half past 3. How long does it take to get there?
2. The news starts at quarter past 4 and finishes at twenty-five past 4. How long does it last?
3. Neighbours starts at half past 5. It is twenty past 5 now. How long is it until it starts?
4. School starts at 9 o'clock. Playtime is at half past 10. How long do the children have to work for before they can go out to play?
5. Home time is at ten past 3. It is quarter to 3 now. How long is it until home time?
