

Can I find tenths of numbers?

To find **one tenth** of a number, you need to divide the number by ten.

To find **four tenths** of a number, you need four lots of one tenth, so you times $1/10$ by 4.

To find **seven tenths** of a number, you need seven lots of one tenth, so you times $1/10$ by seven.

Number	$1/10$ One tenth	$4/10$ Four tenths	$7/10$ Seven tenths
