

INTRODUCTION

The Secretary of State for Education has announced that schools will reopen to all year groups at the start of the new school year in September. It is likely that when journeys to and from school are added back on to the road network, school and public transport capacity will be constrained due to the government requirements of social distancing and other COVID-19 measures.

This survey aims to ascertain how children travel to and from school, in order to develop a better understanding of current transport usage and capacity in the local area, and to identify where additional support will be required to ensure that pupils, parents and staff can travel safely upon their return to school in September.

Please answer the following questions. If you have more than 1 child at the school answers should be based on your eldest child.

PARENT SURVEY

Q1 Please indicate how many children you have in the following age groups.
Age 5 – 10
Age 11 – 18

Q2 Which school does your child attend?
Q3 Which town or village is your child's school in?
Q4 How far approximately (in miles) is your child's school from your home?
Q5 What is your home post code?

Q6 Does your child travel to school independently? Please tick your answer.
Yes
No
If yes, please go to question 8
