

# Project Time!

Class 3 .....it's Project Time.  
With the Olympics due to take place this summer, but likely to be postponed, I would like you to prepare an independent project on an Olympic athlete of your choice. You will have lots of time to research, prepare and produce your project, and bring it into school when we come back.

Your project will contain at least 10 A4 pages containing writing and illustrations. I suggest that you spend some time each week preparing your project as you will need to carefully combine computer generated text and illustrations with handwritten and hand drawn pictures.

Your project will contain accurately presented research, with biographical information; you may choose to include some creative writing: a poem, a fictitious diary entry or even a short story. You will hand in your project beautifully presented, to the best of your abilities. Should you require help or advice please ask your adults to email me.

Good luck  
Mr Harrison
